

July, 2022

Announcement of Design Number Change for Pneumatic Swing Clamp (model WHC)

Dear Valued Customers,

First of all, thank you very much for your continuous use of our products. Today, please confirm below about the subject.

Notes

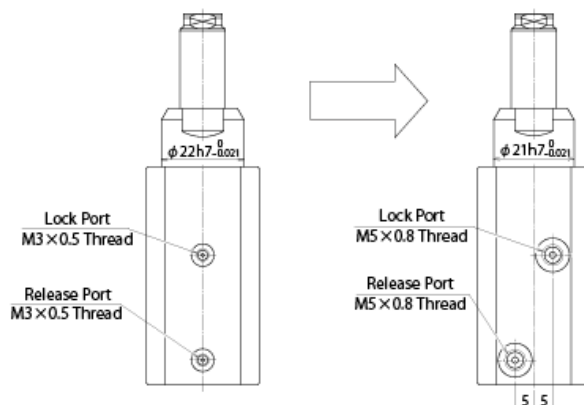

Design number [Model number] has been updated as below for adding long stroke model.

1. Model Number

Model Name	Existing Model	After Changing Design No.
Pneumatic Swing Clamp	WHC□□□0	WHC□□□1

2. Changes

- Anodized aluminum finishing color on cylinder part is changed from red to white.
- Only for WHC0201, there are 2 changes in dimensions.
Port size M3 is changed to M5, and port positions are also changed.
φ22h7 part is changed to φ21h7. (It is interchangeable with existing item.)

- For WHC0321/0401, the change is the color of outside appearance only.
It is interchangeable with existing item.

3. Schedule

It is going to be changed sequentially from July 7th, 2022. If the different sizes are ordered in one order, old and new items may be mixed. However, when the items whose sizes are the same but swing directions are different (L/R) are ordered in one order, mixing old and new items will not be happening. (When old and new items are mixed due to stock status, we will contact you before shipment.)

※Regarding supplying to overseas, the update timing is different, depending on overseas office or dealers.

Please contact our salesperson for further inquiries.

Yours Sincerely
KOSMEK LTD.
