

## 3 $\mu$ m Locating with Bolt Tightening

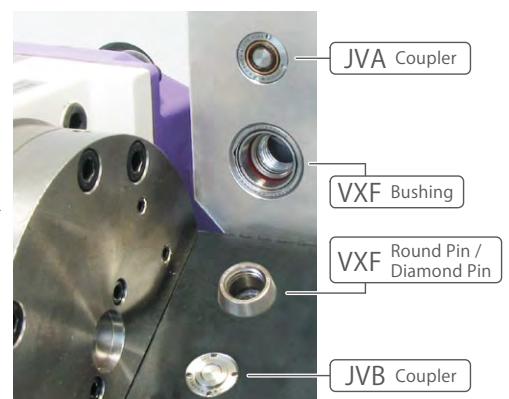

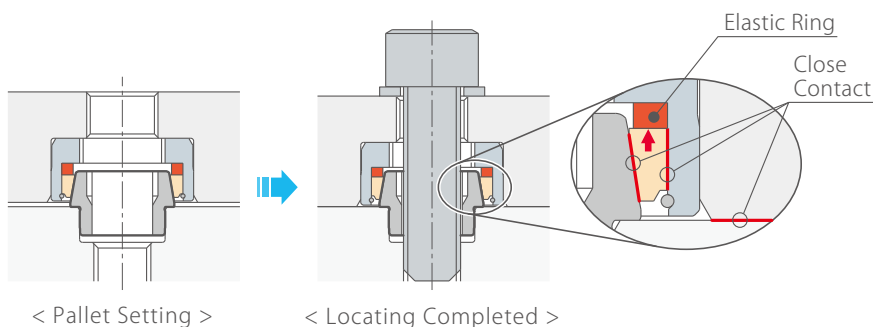

Improves flexibility by changing fixtures manually.

**Screw Locator** Model VXF  
Enables **Locating with 3  $\mu$ m**  
just by Bolt Tightening

## Anyone can change fixtures with high accuracy.

The elastic ring enables the tapered part to move. Dual-contact absorbs distance variance and **dimension changes caused by temperature change, resulting in smooth loading.**

# Manual Pallet Change Example

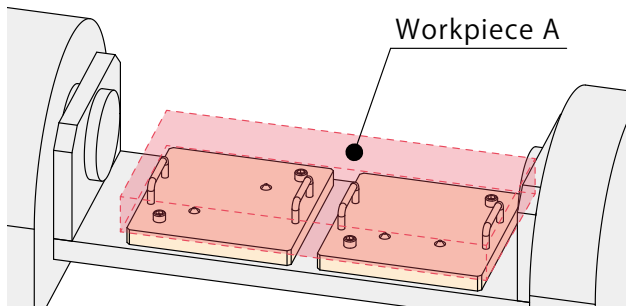

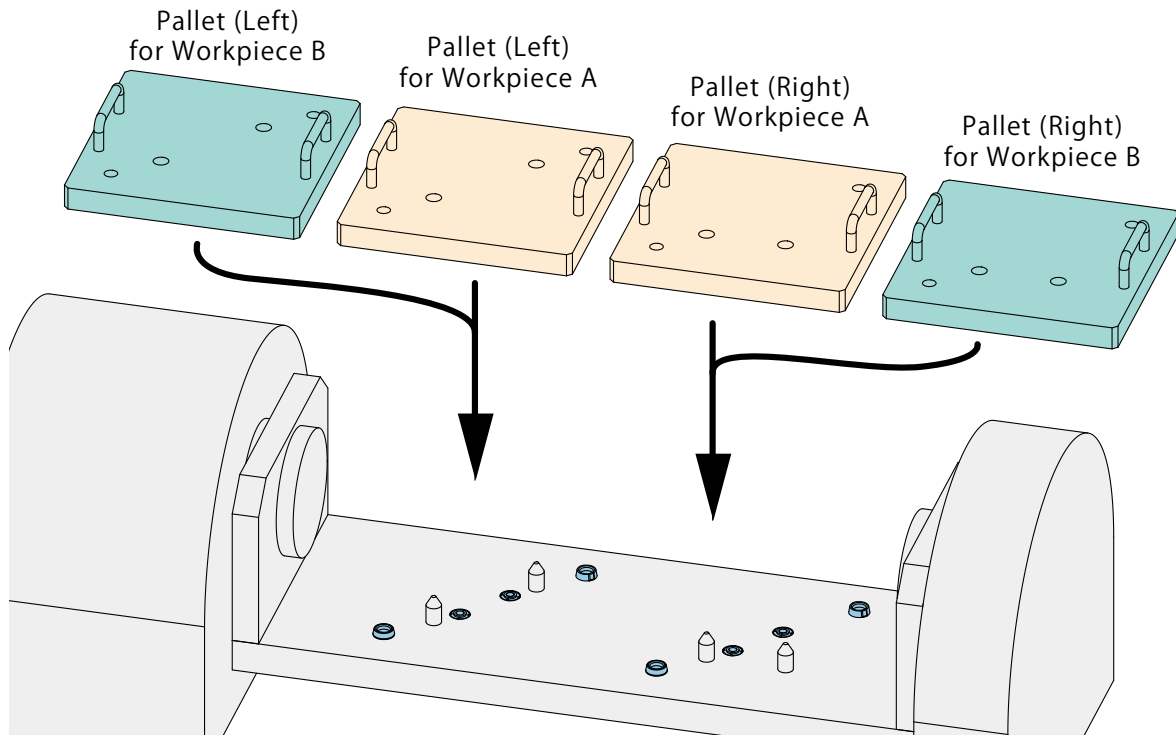

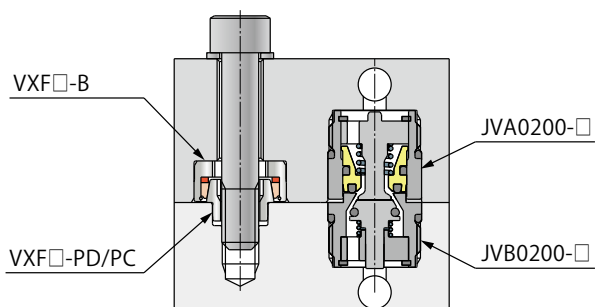

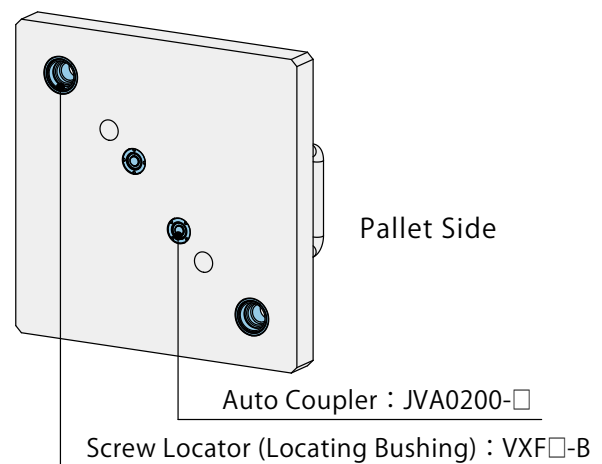

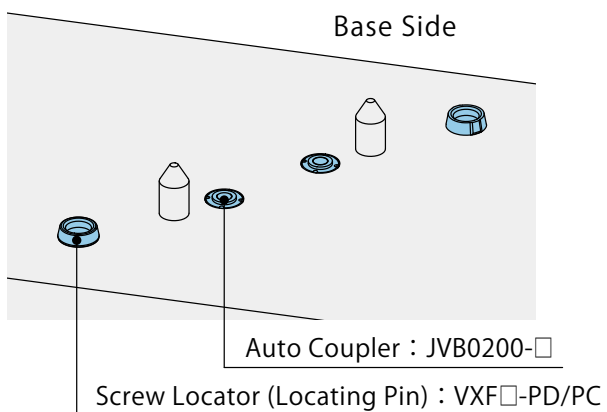

Image : Pallet Setting and Workpiece

**Automatically connects hydraulic and air pressure by using with compact Auto Coupler**

We offer the best suitable Auto Coupler to combine with VXF. No connecting error occurs during setup. Minimal work to change pallets.
